

MATERIALS HANDLING PRODUCTS

Pallet Bin

A multi use bulk materials handling and storage container suitable for food, chemicals, pharmaceuticals and many other uses.

The Omni Pallet Bin is rotationally moulded using tough impact resistant polyethylene, and the design is robust to suit heavy industrial use.

FEATURES

- Seamless one piece moulding providing strength and smooth rounded corners for easy cleaning
- Made from food grade polyethylene
- Extra strength "boxed" top edge flange
- Angled corners & feet to minimised fork damage
- Nestable when empty thereby reducing transport & storage costs
- Can be stacked 3 high to maximum load 1200Kg

OPTIONS

- Drainage plug
- Custom colours and markings
- Base feet plates to suit rotating forklift
